

The #1 reason
why dogs love
ArthriMAXX™

...and the
#1 reason
why cats need
ArthriMAXX™

ANIMAL NUTRITIONAL PRODUCTS

Extending the lives of our pets

2 different formulas for 2 different species

Why choose ArthriMAXX™ over every other Joint Formulation on the market?

- it is formulated and manufactured in an FDA, cGMP and pharmaceutically licensed facility under strict quality control
- it's easy to use for your clients; just measure and pour over dry or wet food
- it is cold processed in a liquid formula to ensure higher absorption, plus easier assimilation for full potency
- ArthriMAXX™ is being utilized by prestigious institutions, specialists and hospitals
- ArthriMAXX™ is prescribed only through veterinarians to ensure that patients receive a proper follow-up regimen
- ArthriMAXX™ is effective enough to be used in conjunction with NSAIDs and may also help to eliminate the need to use NSAIDs
- in recent double blind clinical studies, the microalgae Astaxanthin* has been shown to have powerful neutralizing effects on inflammation and oxidative damage
